Teachers and children visited the "Exhibition Hall 1" to learn about the architecture, collections and cultural heritage, which enabled children to understand the ancient Chinese buildings, such as the Forbidden City and the Courtyard, and to appreciate the patterns and carvings in the ancient houses, which were very large with a lot of pavilions.

Then they went to the "Thematic Exhibition Hall - Gazing at Sanxingdui" on 3/F to learn about Chinese culture and arts, which enables children to understand the culture and arts of the Chinese people at that time in terms of food, clothing, housing and transportation. For example, from viewing the precious bronzes, jades, gold wares and potteries, it enables children to learn about the advancement of the civilization in the ancient times and the exchanges between different regions.
