

Kindergarten Education Scheme Experiential Learning Activities Display Form

HKSPC Butterfly Estate Nursery School

Name of School

2023-2024

School Year

N3

Grade Level

Name of Activity

Astronomical Activity - The Big Big Sun

Objective(s)

- Learn about the relationship between the sun and us by looking at projected images of the sky through the Astronomy Dome.
- Children can explore the appearance of the sun and feel its brightness and warmth through the special solar filter.
- Children can make a model of the sun through creative activities and share their personal feelings and experiences.

Brief Descriptions:

Children were arranged by the instructors of S.T.E.A.M. for Children Wonderland to enter the Astronomical Dome to see the projected image of the sky and learn about the relationship between the sun and us. Children entered the tent to learn more about the characteristics of the sun and its relationship with our lives. During the process, children explored the appearance of the sun through a special solar filter and were full of curiosity, expression and questions. Afterwards, the instructor used an art and creativity activity for the children to make a model of the sun, and the children took the initiative to share their personal feelings and experiences.

Record of Activity (E.g. Children's Work / Photos / Videos of the activity)
