Integrated Programme

- Children with special education needs (SEN) can be referred to the school by the Central Referral System for Rehabilitation Services of the Social Welfare Department.
- Teachers having received the training under the Integrated Programme can design an individualised learning plan for each referred student after consulting professional therapists. Training and care will also be provided to SEN students so that they can better adapt to society and mainstream education in the future.
(This service shares the same service hours, fees, registration and withdrawal procedures with those of the daytime service.)

Admission

School Fee

1. The amount of school fee is approved by the Government and adjusted annually every September. Please call the school for enquiries about the latest fee.
2. Our Schools are eligible for the Kindergarten Education Scheme. Families that request financial assistance may apply to the Student Finance Office for fee remission under the Kindergarten and Child Care Centre Fee Remission Scheme.

ART & LANGUAGE INTEGRATED CURRICULUM
ART Week PROJECT APPROACH
LIFE EDUCATION INTERNAL & EXTERNAL PERFORMANCES

Hong Kong Society for the Protection of Children (HKSPC)

HKSPC has been committed to nurturing children in their early childhood development since 1926. Being one of the most established organisations in the field, HKSPC provides professional and comprehensive educare services adhering to the child-centeredness belief.

All our Nursery Schools are subvented by Kindergarten Education Scheme of Education Bureau to provide whole-day early childhood education and auxiliary child care services for the families in need.

Mission Statement

- To provide children with happy, caring, safe and diverse learning environments; to establish a solid foundation for children's life-long learning; to inspire children's potential and holistic development.
- To provide support and partnership with parents, and to develop children's good habits and self-learning.

Service Group

Children aged 2 to 6

Teaching Elements

The holistic learning activities developed by our Curriculum and Development Committee encourage children to learn through explorations.

In line with the school-based curriculum features, the activities cover a broad variety of pedagogical elements.

Language Development

Art & Language Integrated Curriculum

Cultivate children's interest in learning and language development through the incorporation of diverse learning elements, including stories, music, physical fitness, and arts and crafts, into learning activities.

Bi-literacy and Tri-lingualism

Enhance children's biliterate and trilingual capabilities by adopting the activity approach to teaching English and Putonghua.

Project-based Learning Approach

Project-based Learning Approach

The project-based learning approach can arouse children's curiosity and interest in learning. During activities, children can acquire various techniques including discussions, explorations, observations, comparisons and summarisations, so as to develop multi-dimensional and logical thinking, and enhance problem-solving skills.

Art Week

In the annual event, Art Week, our art instructors guide and help children to leverage a broad array of materials to express themselves and develop their creative thinking capabilities.

Emotional and Social Development

Life Education

Educate children to cherish life and develop good virtues, positive values and self-images through everyday experience.

Parenting Activities

Close partnership between schools and parents to nurture children's development.

Internal & External Performance Opportunities

Encourage children to unleash their self-image, potentials, boost self-confidence and develop a gregarious attitude.

Qualification of Teachers

- All teachers have obtained the Certificate in Early Childhood Education, and some have obtained / are studying the Bachelor's / Master's degree in Early Childhood Education.
- Teaching staff pursue continuing education and join a broad variety of teaching seminars.

Facilities

HKSPC's headquarters provides extra educational resources for children's regular use, enriching their learning experience.

Science Wonderland

A rich array of professional science and astronomy equipment is available, arousing children's interest in science explorations through first-hand experience and discoveries.

Playground

With a floor area of 850 square metres, the playground is equipped with a broad spectrum of novel play facilities for children's use.

Our Campus

Our campus of over 5,000 sq. ft. is located on the ground floor of GIC Building at Olympian City 1. We are a pleasant, spacious, comfortable, clean and well-maintained environment with full air-conditioning, air purifiers, and blue light bug zapper lamps.

Our campus comprises an indoor activity room, a gross motor exercise playground, a sensory room, a multi-purpose activity room, a parent resources corner and a group consultation room, as well as comprehensive audiovisual teaching tools. Each classroom is equipped with computers, educational books and toys, and themed teaching and learning corners, providing inspirational, safe and hygienic learning spaces for children.
