

Kindergarten Education Scheme Experiential Learning Activities Display Form

Hong Kong Society for the Protection of Children Ma Tau Chung Nursery School

Name of School

2023-2024

School Year

N3

Grade Level

Name of Activity

Visiting 'Health Education Exhibition & Resource Centre'

Objective(s)

- Through visiting exhibitions, children learn good habits for maintaining environmental and personal hygiene.
- Children enter the educational garden and learn about food safety through engaging in games.

Brief Descriptions:

During the visit, children deepened their understanding of food, personal, and environmental hygiene through various games and display panels. Firstly, children participated in games at the interactive exhibition hall, learning about food and environmental hygiene through games, such as identifying which foods need to be properly stored in the refrigerator and understanding labels on food packaging. At the same time, they also learned how to maintain personal hygiene and cleanliness.
