

# Kindergarten Education Scheme

## School-based Learning Activity of Chinese Culture

### Display Form

HKSPC Butterfly Estate Nursery School

Name of School

2024-2025

School Year

N2

Grade Level

### Name of Activity

Visit the Jockey Club Museum of Climate Change

### Objective(s)

- Learn about the effects of climate change on our lives.
- Discover the contributions of China's icebreaker Xuelong in climate change research.
- Encourage low-carbon living habits living among young children.

### Brief Descriptions:

The children began their visit at the Polar Corridor exhibition, where they learned about the Chinese Polar Research Station's icebreaker. They then moved to the Innovative Research Zone to watch a film about climate change. Guided activities followed, including simulated satellite remote sensing and environmental monitoring, allowing the children to role-play as research personnel. Finally, the children visited the Eco-Friendly Zone to understand the importance of low-carbon living.

### Record of Activity (E.g. Children's Work / Photos / Videos of the activity)
