Cheung Sha Wan Nursery School**

Name of School

2024-2025

School Year

N4

Grade Level

Name of Activity

Typhoon is coming: Visit the Jockey Club Museum of Climate Change

Objective(s)

- Through the visit, children can learn about different types of climate change.
- Through the visit, children can learn about the importance of protecting the environment.

Brief Descriptions:

- A guide will lead children to visit the special exhibitions at the Jockey Club Museum of Climate Change, allowing them to learn about the Antarctic and Arctic environments, the importance of protecting the Earth, climate change and how to mitigate temperature rise, and the concept of environmental protection.
- A guide will also lead children through a video showcasing how global warming will cause Arctic temperatures to rise and ice to melt, disrupting the habitats of polar bears and penguins. This will help teach children about environmental protection.
- A guide will also share ten ways to protect the environment, such as taking public transportation instead of driving. Children are encouraged to share these tips with their families, so they can all work together to protect the environment and care for the Earth.
