Name of School

2024-2025

School Year

N2

Grade Level

Name of Activity

Visit Kadoorie Farm and Botanic Garden “Looking for the little fish”

Objective(s)

- Children can observe and explore the characteristics of fish..
- Children can learn to appreciate and protect the nature.

Brief Descriptions:

According to the theme "Interesting Fish", children began to learn about their appearance.

Therefore, the teacher led the children on a visit to Kadoorie Farm.

Through visit activities, the children observed different types of fish and discussed their physical characteristics, such as mouths, eyes, tails, gills, and scales. They also used children's cameras to take photos, thereby understanding their characteristics.

Also, the children were able to discuss ways to protect the environment, such as carefully observing different animals, refraining from making loud noises and avoiding littering. This fostered a love for nature in the children.
