Sik Sik Yuen Lady Ho Tung Welfare  
Centre Eco-learn Institute

活動目標(Target) :

1. 幼兒能體驗稻米生長的不同階段和田間生態。
  2. 幼兒能透過五感和體驗式學習，培養愛護環境的意識。
1. Children can experience the different stages of rice growth and the ecology of paddy fields.
  2. Through sensory and experiential learning, we can enhance children's awareness of environment protection.

活動簡介(Activity Overview) :

老師於「秋天」單元的課堂活動中，與幼兒一同認識了秋天收成的季節，並帶出了對大自然的尊重和愛護態度。為延伸幼兒的學習興趣，老師安排幼兒參觀耆色園何東夫人醫局生態研習中心，讓幼兒運用感官去認識稻米製作的過程。

In the "Autumn" unit, the teacher engaged children in understanding the season of autumn harvest, emphasizing respect and care for nature. To enhance the children's learning interests, the teacher arranged a visit to Sik Sik Yuen Lady Ho Tung Welfare Centre Eco-learn Institute, where the children utilized their senses to explore the process of rice production.
