## 活動簡介 Brief Introduction:

老師透過不同的體驗式學習活動，利用五感探索不同的麵(如: 米粉、意大利粉、河粉等)，探索了不同麵的顏色、質感及味道等。幼兒更嘗試探索製作麵條的方法，以「從做中學」認識製作麵條的程序，並與同伴互相合作，體現中華文化的團結精神。

Through various experiential learning activities, teachers used the five senses to explore different types of noodles (such as rice noodles, spaghetti, and hor fun), exploring their colors, textures, and flavors. Children also explored noodle making, learning through "learning by doing" and collaborating with their peers, embodying the spirit of solidarity in Chinese culture.
