- Cultivate good morals and behavioral habits, as well as a heart of filial piety towards parents.

活動簡介 Brief Introduction:

老師於課堂中與幼兒認識了不同的清潔用品及用具，從而認識不同用品的功用。幼兒亦明白自己已經長大，嘗試學習照顧自己及感受媽媽照顧自己的辛勞。從而延伸模擬角色扮演媽媽照顧嬰兒，從而體會家長的辛勞，學習孝敬父母。

During the lesson the teacher introduced various cleaning products and tools to the children, helping them understand their functions. The children also realized they are growing up and began learning how to take care of themselves while appreciating the hard work their mothers put into caring for them. This activity extended into role-playing as mothers taking care of babies, allowing the children to experience the effort given by parents and learn to have a sense of filial piety toward their parents.
