#### 活動簡介 Brief Introduction:

衣服為「衣食住行」中的其中一環，亦與幼兒的生活息息相關。而中國作為四大文明古國之一，有源遠而深蘊的衣服文化，在不同朝代和民族各有不同特色的衣物，可謂百家爭鳴。藉著探索有關中華文化中有關衣服的知識，幼兒不僅可以對中國特色服飾有更深的認識，增加民族認同感，更能藉此探索其他不同國家的民族服飾，學習欣賞不同國家的文化，培養普世價值。

Clothing is one of the essential elements of "food, clothing, housing, and transportation," and is closely intertwined with children's lives. As one of the four ancient civilizations, China boasts a rich and profound clothing culture, with distinct styles across dynasties and ethnic groups, a veritable multitude of schools of thought. By exploring the relationship between clothing and Chinese culture, children can not only gain a deeper understanding of Chinese attire and strengthen their sense of national identity, but also explore the costumes of other countries, learn to appreciate diverse cultures, and cultivate universal values.
