

2024-2025年度 N4中華文化之旅 Chinese Cultural Journey

活動對象 Target: N4幼兒children

活動目標 Objectives:

1. 讓家長與幼兒認識大熊貓的居住環境。
 2. 讓家長與幼兒認識中國獨有物種：川金絲猴。
 3. 讓家長與幼兒認識四川動物各種身體特徵與棲息地之關係。
- Let parents and children understand the living environment of giant pandas.
 - Let parents and children learn about the Sichuan golden snub-nosed monkey, a species unique to China.
 - Let parents and children understand the relationship between the various physical characteristics of Sichuan animals and their habitats.

活動簡介 Brief Introduction:

學校邀請家長與幼兒一同到海洋公園參加「大熊貓跡中尋」活動，參與以四川動物日常生活為主題的互動布偶劇，並透過與海洋公園工作人員互動及遊覽中觀察，認識大熊貓的居住環境，以及牠們的特性，亦認識了另一中國獨有物種：川金絲猴。家長與幼兒都享受是次活動，並對中國獨有的動物加深了認識。

The school invited parents and children to participate in the "Giant Panda Trail" activity at Ocean Park. The children participated in an interactive puppet show themed on the daily lives of Sichuan animals. Through interactions with Ocean Park staff and observational tours, they learned about the giant pandas' habitat and characteristics. They also learned about another species unique to China: the Sichuan golden snub-nosed monkey. Both parents and children enjoyed the activity and gained a deeper understanding of these unique animals.
