Name of Activity

Dragon Boat Fun Festival

Objective(s)

- To learn about the origins and characteristics of Chinese festivals, deepening their understanding of Chinese culture and enjoying the fun of celebrating with others.
- To learn traditional Chinese festival foods and experience the custom of eating zongzi during the Dragon Boat Festival.
- To feel the lively atmosphere of the celebration and experience the unique features of traditional Chinese customs.

Brief Descriptions:

On the day of the Dragon Boat Festival activities, children watched stories and poems about Chinese culture, learning about the festival's origins and customs, which sparked their interest in Chinese traditions.

During group games, they participated in "Zongzi Toss" and "Dragon Boat Racing," simulating the customs while experiencing teamwork and the joy of celebration. In the craft segment, children created traditional scented sachets using fabric, dried flowers, and ribbons, painting festival-related patterns and filling the sachets, making unique gifts. They also made dragon boat crafts to explore traditional customs.

To enhance their understanding of zongzi, teachers showed a preparation diagram and invite a chef to demonstrate wrapping zongzi, involving the children in the process.

Finally, during snack time, children tasted various zongzi, including savory and sweet varieties, while learning about their ingredients and cultural significance, sharing their experiences of this festive tradition.
