

Kindergarten Education Scheme

School-based Learning Activity of Chinese Culture

Display Form

Hong Kong Society for the Protection of Children Ma Tau Chung Nursery School

Name of School

2025-2026

School Year

N2-N3

Grade Level

Name of Activity

Enjoying a Chinese Acrobatics Show

Objective(s)

- 1) Through appreciating Chinese acrobatic performances, young children will deepen their understanding of traditional Chinese arts and culture, and cultivate a sense of national identity.
- 2) Through manipulating Chinese acrobatic props and attempting to learn the performance techniques involved, young children will gain hands-on experience with the skills of Chinese acrobatics.

Brief Descriptions:

First, our school teachers will give a brief introduction to the content of the performance programme. Then, the performers will use a PowerPoint presentation to introduce to the children the origins, background, and various props of Chinese acrobatics, as well as play video clips of Chinese acrobatic performances for the children to enjoy. The performers will also give live demonstrations of acrobatic items such as scarf tossing, ball juggling, plate spinning, and diabolos. Finally, children will be invited to come forward and try out different props themselves, so as to experience the fun of acrobatic performance. After the performance session, the teachers will lead the children in expressing words of gratitude to the performers, and arrange for the children to take group photos with the performers as a souvenir.
