Experiential Learning Activities Outside the Classroom
Display Form**

**Hong Kong Society for the Protection of Children
Cheung Sha Wan Nursery School**

Name of School

2025-2026

School Year

N3

Grade Level

Name of Activity

Visiting Brighter Smiles Playland

Objective(s)

- Through activities, children learn the correct way to brush their teeth and understand the importance of dental health.
- Through activities, children use role-playing games to help them develop good brushing habits to maintain oral health.

Brief Descriptions:

- In the classroom exhibition area, through videos and children's songs, children learn the importance of brushing their teeth in the morning and at night. Also, by introducing dental care tools, they are taught the proper tools and methods for brushing. Children also can explore the brushing tools, distinguish the sizes of toothbrushes, and understand the importance of the tools needed and protecting their teeth.
- In the dental clinic exhibition area, children engage in role-playing activities. By pretending to be dentists and simulating dental check-ups, they learn about the tools used in dental exams, the procedures, and the importance of regular dental check-ups.
- Through role-playing activities, children are taught to develop a habit of drinking water on time and how to collect snacks to organize snack time.
