2025-2026

School Year

N3

Grade Level

Name of Activity

Experiential Learning Week: Little Hygiene Experts

Objective(s)

- Through activities, let children learn to make and use natural soaps and cleaning products, helping to develop their habits of maintaining personal and environmental hygiene.
- Through activities, let children understand the reasons for choosing natural cleaning products, fostering their attitude of caring for the environment.
- Through activities, let children experience wiping tables, cleaning floors, and washing toys, allowing them to appreciate the hard work of family members and staff, and nurturing the Chinese traditional virtue of 'gratitude'.

Brief Descriptions:

- In the "Making Natural Soap" activity, children learn about the process and properties of soap by observing and participating in steps like arranging dried flowers, pouring molds, and unmolding. They also show curiosity and engagement with the colors and scents of the soap.
- During the "Wiping Tables and Floors" activity, children get to learn the proper way to use cleaning tools like cloths and mops, while practicing basic life skills, helping them understand the importance of keeping the environment clean.
- Through hands-on experiences, children learn how to maintain personal and environmental hygiene, recognize the importance of using natural cleaning products, and enhance their sense of responsibility and environmental awareness. They also gain appreciation for the hard work of family members and staff, fostering a sense of gratitude.

Record of Activity (E.g. Children's Work / Photos / Videos of the activity)
