Experiential Learning Activities Outside the Classroom  
Display Form**

**Hong Kong Society for the Protection of Children  
Cheung Sha Wan Nursery School**

Name of School

**2025-2026**

School Year

**N2**

Grade Level

**Name of Activity**

**Loving Nature: Look at the Little Fish**

**Objective(s)**

- Through the visit, children will be able to identify different types of fish, including their names, physical characteristics, and natural habitats.
- Through activities, children can develop an attitude of care and respect for nature.

**Brief Descriptions:**

- By sharing the storybook, teacher guided children to recognize the physical features and living environments of fish. To further foster their care for animals and the environment, the teacher arranged an educational visit to the Hong Kong Wetland Park.
- During the visit, children explored various thematic zones—including the Stream Walk, Stream Life, and Mangrove Boardwalk—where they observed different fish species, such as mudskippers and carps. This experience deepened their understanding of fish appearance and living habits.
