

Kindergarten Education Scheme Experiential Learning Activities Display Form

HKSPC Ma Tau Chung Nursery School

Name of School

2025-2026

School Year

N4

Grade Level

Name of Activity

Wonderful Water Journey

Objective(s)

- Explore water's vital role in life through the venue's educational resources
- Discover water's unique properties with hands-on experiments
- Develop water-saving habits through interactive games

Brief Descriptions:

The staff of The H2OPE Centre guide children through the exhibition area, where they learn about Hong Kong's public waterworks history and the development of water infrastructure—through interactive exhibits and short videos, helping them understand the importance of saving water. Also, they watch videos about water resources which help children to know more about the water cycle. Furthermore, through hands-on games, children experience and learn about the water cycle, as well as weather, typhoons, and rainstorm warning signals.
