In the days leading up to Mother's Day, teachers engage children in activities at school that reinforce the traditional Chinese cultural value of "filial piety". This includes: Reading stories related to Mother's Day with the children, having children sing songs that express gratitude towards mothers, guiding children to make cards for their mothers. On the day of the Mother's Day event, children have the opportunity to directly express their love and appreciation to their parents. Additionally, N1 and N2 children make osmanthus cakes together with their families, N3 and N4 children make dumpling and then bring these traditional Chinese pastries home to share with their loved ones. This activity allows the children to learn about and appreciate the cultural significance of "filial piety".
