

2023-2024 年度

N4 班參觀兒童探索博物館

班 級 (Class) : N4

參 觀 地 點

(Location) :

兒童探索博物館 Hong Kong Children's Discovery Museum

活動目標 (Target) :

- (1) 透過戶外參觀，讓幼兒認識保護環境的方法。
 - (2) 透過遊玩展館內的設施，讓幼兒自由探索、創造和表達，培養自主學習的態度。
 - (3) 幼兒能遵守戶外參觀的規則。
- (1) Through outdoor visits, help children recognize ways to protect the environment.
 - (2) Through playing with the facilities in the exhibition hall, let children freely explore, create and express, and cultivate an attitude of autonomous learning.
 - (3) Children can follow the rules of the outdoor visit.

老師早前於主題活動中與幼兒認識不同的大自然現象，以及不同的天氣變化、地球資源等知識。為延伸幼兒的學習興趣，老師安排幼兒到「兒童探索博物館」參觀，透過親身操作及進行有趣的小任務，如：遊玩互動探索區、水之源等展區。讓幼兒透過做中學及遊戲中學習，自由地探索、創造和表達，認識保護環境的方法，並培養自主學習的態度。活動後，老師安排延伸活動，請幼兒分享所學，以鞏固所得的新知識和技能。The teacher previously introduced different natural phenomena, weather changes, and knowledge about Earth's resources to children during thematic activities. To extend the children's learning interest, the teacher arranged for the children to visit the " Hong Kong Children's Discovery Museum ". Through hands-on operation and engaging in interesting mini-tasks, such as exploring the "Source of Water" exhibition area, etc., children could learn through doing and playing, also, they can freely explore, create and express. From this, the children can recognize ways to protect the environment and develop an attitude of autonomous learning. After the activity, the teachers arranged follow-up activities, asking the children to share what they had learned, to consolidate the new knowledge and skills they had acquired.
